## NOTES.

THE Royal Burgh of Ayr, the capital of Ayrshire, is situated at the mouth of the River Ayr, the town and county receive their name from the River Ayr, a name which is probably a survival from the old times of the Strathclyde Britons, signifying in Cymric, "the gentle water." Distant about 30 miles S. S.-W. from Glasgow, and by rail 74 miles S.-W. from Edinburgh. The spot has been inhabited from a remote antiquity, It was the site of a Roman Station, and it has been ascertained that a hamlet remained here until the year 1197, when William the Lion engrafted a new town upon it, which about the year 1202 he constituted a royal burgh.

In ancient times Ayr was distinguished both for trade and military strength; and being an important point of concentration on the west, it was the scene of frequent conflicts, and repeatedly changed hands during the wars of Scottish independence, in the time of the Edwards and the Bruces. Here Edward I. fixed a powerful garrison. and here the patriotic exploits of Sir William Wallace commenced.

When Scotland was over-run by Oliver Cromwell, he fixed upon it as the site of one of the four forts which he built to command the country. This fortification, termed the Citadel, enclosed an area of about ten or twelve acres, including the Church of St. John. The Tower (which only remains), is a venerable relict, founded in the twelfth century, and dedicated to St. John the Baptist. The church itself was built in the form of a cross. In 1560 it fell into the hands of the reformed clergy, of whom was the Rev. John Welsh, son-in-law of John Knox the Reformer. The Scottish Parliament met here and confirmed the title of Robert the Bruce to the throne. When the Protector, in 1652, took possession of it. turning the Church into a storehouse, he indemnifying the inhabitants for the seizure by contributing 1000 merks (Scots) towards the erection of the present old church, on the site of a former Franciscan monastery. The Citadel was purchased in 1853 by Mr John Miller, the present occupier of the Tower.

Wallace Tower.—A Gothic structure 113 feet high, erected on the site of a former one which was taken down about 1830.

It was designed by a Mr Hamilton, and cost about £1400. It has always been associated with the name of Sir William Wallace. A statue of the renowned chief, cut by Tom, the famed sculptor of "Tam o' Shanter and Souter Johnny," occupies a niche in front. The cost of the statue was 120 guineas, and the money was subscribed in a fortnight, chiefly through the exertions of Mr Auld, Doonbrae, Tom's chief patron. A figure of less pretensions, cut by Mr Reid of Glasgow, stands in a niche of the Scotch baronial building at the east end of Newmarket Street, placed there in 1810 by Henry Cowan, to replace an old representation of the head of Wallace which had fallen into decay. The effigy was originally erected there to commemorate the sheltering of Wallace from his enemies under this roof.

The Old Bridge was built in the reign of Alexander III. (1249-1284) by Isobel Lowe, and her sieter, two maden ladies, who, tradition states, spent their fortune on the undertaking. In 1877 the heavy floods undermined the foundations of the New Brig, referred to by Burns, and the present New Bridge was built on the same site. Victoria Bridge, erected in 1897. Burns' Statue unveiled, 1891. Burns Monument built, 1820. The Town's Building's, with a spire 226 feet high, erected 1828, cost £14,000, and greatly enlarged in 1881. Town Hall destroyed by fire on 1st July, 1897. The County Buildings modelled after the Temple of Isis in Rome, completed in 1822, costing upwards of £30,000. The Ayr Academy was founded chiefly on a bequest of £1000 left for educational purposes in the year 1790 by Mr Fergusson of Doonholm. This sum was supplemented by private subscriptions of £6585. The cost of erection was £2837; and the balance of the fund was vested in Government securities. A charter was obtained in 1798, under which the management was committed to seven directors, annually chosen from among the Magistrates and Town Council. Since 1872 the Academy has come under the Education Act, and is now managed by the School Board.

Newton-upon-Ayr is of very ancient erection, owing its privileges to Robert Bruce, who, upon being attacked by leprosy, came to reside in it, and was induced to establish a lazaret-house to confer considerable favours on the town. Newton and Wallacetown were comprehended within the Parliamentary Burgh of Ayr in 1832. The Municipal Burgh was in 1873 rendered conterminous with the Parliamentary, and again extended in 1885. Its present area is about 1996 acres.

## AYRSHIRE.

This county, which is about 60 miles in length and 26 in breadth, containing 1,128 square miles, or 722,229 acres, comprises the districts of Carrick, lying on the south of the Doon; Kyle, between the Rivers Doon and Irvine; and Cunningham, north of the River Irvine. These divisions, although abolished by statute in 1748, still continue to be recognised in statistical descriptions of the county. The surface undulates, reaching no great elevation, except in the S. and S.-E., which are somewhat mountainous, while there are few hills on the N. It is famous for its valuable breed of cows, and rich, yet mild cheese, known by the name of Dunlop.

Among the antiquities of Ayrshire are the cairns of Galston and Lorn; Camps, supposed to be Danish, at Dundonald, and on the hill at Knockgeorgan, near Ardrrossan; the Castles of Loch Doon, Turnberry, Dundonald, Portincross, etc.; the Abbeys Crossraguel and Kilwinning; and the Kirk of Alloway, immortalised by Burns, who was born in a cottage a quarter of a mile distant, on 25th January, 1759, where upwards of 50,000 admirers annually pay homage to his immortal memory.

\* Old Division of Wards.

The principal rivers are the Ayr, Doon, Girvan, Stinchar, Irvine, and Garnock.

It was inhabited in the time of Agricola (first century), by the Damnonci, with whom were afterwards mixed the Scots from the opposite coast of Kintyre, and during the religious persecutions of the Stuarts it was a stronghold of the Covenanters.

### WON'T SHRINK, AND WEAR WELL.

"Wincella" Material possesses all the merits of Scotch Wincey without its disadvantages. It is very durable, suitable for the most sensitive skins, more pleasant to wear than ordinary flannel, and non-shrinking. It can now be had in all wool cellular makes which have the hygienic quality of clothing the body in air. By a new process white and cream Wincella can be had in a special make for children and invalids,—wet proof yet perfectly porous.

"Wincella" is suitable for Blouses, Shirts, Yachting and Cycling Costumes, Children's Frocks, Ladies Nightdresses and Underclothing, Babies' Garments, Nurses' Dresses, Gent's Pyjamas, Shirts and Underwear. It can now be had in a large variety of plain and fancy colours, stripes and checks, single and double widths, light medium and heavy weights. Prices from 1/3½ per yard. Patterns Free on Application.

"Wincella" Hosiery now made from same yarn, in all weights, qualities and sizes for Ladies', Children's and Gent's wear. Won't shrink. Pleasant and non-irritant to sensitive skins. Moderate Prices.

"Wincella" Stockings and Sox have a double thread of "Wincella" yarn inserted throughout ankle and foot, making these parts unshrinkable and doubling the wear. In plain or ribbed cashmere or llama, also hand-wrought in our famous 3, 4, 5-ply fingerings.

### Copy of Chemical Report on Mr Thos. Fraser's Whisky.

"City Analyst's Laboratory,

"138 Bath Street,

"GLASGOW, 6th December, 1889.

"I have made a careful analysis of an average sample of  
about 1500 gallons of Mr Thomas Fraser's Whisky, taken by my  
assistant from the Bonded Stores in Ayr, where it is lying, and  
from the result of my analysis, I am of opinion that it is a Pure  
Whisky of good flavour, which has been matured in Sherry  
Casks.
